My Vinyl Designer Clipart

Stick Figure Collection

My Vinyl Designer Stick Figure collection has Faces, Bodies, Other Family, Animals and Elements on this one disc. All images come in .AI, .EPS and SVG format. PDF catalog, tips for the catalog, tips for stick figure families and much more. Fun, fun, fun!

Vector Art Collections 1 - 5

My Vinyl Designer Vector Art Collection has 5 collections on one disc. Each collection has 87 vector images in .AI, .EPS and SVG formats. PDF catalogs of each collection are on the disc. Collections are: Col. 1 Family & Friends, Col. 2 Christian & Scriptural, Col. 3 Life & Inspirational, Col. 4 Home and Col. 5 Hobbies & Sports.

Note to Cricut users: Cricut cutters use the SVG format, but you will need Sure Cuts A Lot or Make the Cut software in order to import the files. These are third party software applications that allow Cricut users to cut files other than those on Cricut Cartridges.

What a machine! Powerful 500 grams of down-force so you can tackle a variety of jobs. Fast 23.62 inches-per-second cutting speed. Superior build quality offers tension-adjustable pinch rollers and a smooth-feeding media supply system.

Best of all, the R-Series Value Cutter is a Vinyl Express® cutter, arguably one of the most prestige based cutter lines in the world. If it says Vinyl Express®, you can be sure your cutter purchase will offer more value than any other brand in its class. Value like Technical Support. Value like a Knowledgeable Staff for Pre and Post sales questions. In fact the whole SignWarehouse company is standing behind you.

The R31 was the first cutter we bought. We are a screenprinting company and wanted to expand into signs. Works great once you know what you're doing and paid for it self in one job. Hope SignWarehouse keeps this cutter around... it's a winner!

— Justin Eclarin, CA

I have had no problems with my cutter. I do a lot of cutting and it has performed flawlessly.

— Tony Wheeler, AL
