

enduraLamTM plus 62" cold laminator

The All new EnduraLam Plus is a pressure sensitive, cold laminator ideal for use with heat-sensitive materials. Cold laminators are the preferred method of applying overlamine film to solvent and ecosolvent inkjet graphics. The EnduraLam Plus is designed to protect a broad variety of inkjet output, and can laminate and mount prints up to 62" wide using pressure-sensitive films and mounting adhesives. Ideal for finishing vehicle wraps, marine graphics, floor graphics, and more.
